

## Application Description

GolfTrackS lets users track their golf play and expenses.

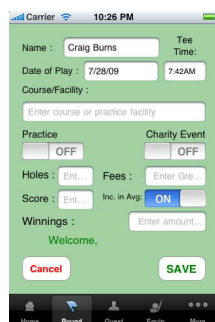

With GolfTrackS you can keep track of your round's total score, the course you played, how much it cost and any winnings you may have from skin pots and other side games you play with your golfing buddies. You can track days at the range or even times you play in charity or non-scoring scrambles.

Use GolfTrackS to:

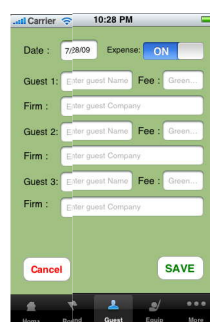

- Keep track of money spent on playing and practicing
- Keep track of who you played with
- Keep track of business expenses for rounds paid for clients
- Track purchases for equipment, balls and other golf related expenses
- View a report of:
  - o Rounds played
  - o Days played
  - o Holes played
  - o Practice days
  - o Amount spent on personal, practice, business and charity golf
  - o Total equipment and golf balls purchased
- Check your winnings for the season
- Review a list of courses played
- View amounts spent on individuals, whether business or personal

GolfTrackS can be used for your business accounting information for client entertainment. Ever wonder how much you have spent on golf for a client to get or keep business? GolfTrackS lets you know if the business you get is worth the expense! You can add the expenses of playing in charity or non-charity outings, enter your team score but exclude it from your average score tracking.
